

Introducing...

myfresh™

Air Freshening Just Got Personal

Our new, innovative solution that delivers more targeted, clean and efficient air freshening for small, personal spaces.

myfresh offers more discreet targeting, providing superior efficiency and cleanliness. It freshens air in small spaces exactly when and where it's needed, reducing fragrance overload, nasal fatigue, and aerosol residue. Clean floors and eliminating the need to handle dirty cans creates a better user experience.

Innovative Technology, Automatic Performance

Featuring hands-free motion-activation, *myfresh* releases just the right amount of fragrance from our proprietary dry fragrance inserts emitted by our small, high-velocity freshFan technology.

DRY FRAGRANCE TECHNOLOGY

Liquid-free, leaves no residue

freshFan TECHNOLOGY

High-velocity fan

HANDS-FREE, MOTION-ACTIVATED

No touching dirty aerosol cans

CHARCOAL FILTERS

For a fresher experience

Great for any small space!

Designed specifically for small spaces, *myfresh* can freshen up any small space: every bathroom stall, urinal or sink area, as well as office & desk areas. Just place *myfresh* within 3 feet of the user's upper body.*

SINK AREAS

OFFICE & DESKS

BATHROOM STALLS

URINALS

For Restroom Stalls:

2' from the floor and within 3' of the toilet.

Anywhere in the back half of the stall behind the user or more than 3' from the toilet is recommended.

*NOTE: *myfresh* should **not** be placed behind the user
